Power

Education

Whenever we build anything, we break barriers.
We effortlessly go beyond brick and mortar and deliver a million emotions
that come together to create a better world. For our people,
customers, partners and stakeholders.

Simply put...

**WE MAKE
LIVING
BETTER**

MESSAGE FROM THE CHAIRMAN

I express my deep gratitude to all our customers, employees, partners and stakeholders for their unwavering support and belief. We have – for over three decades – delivered quality of the highest standards and exceptional service to our customers. It's this patronage and encouragement that have served as inspiration for our growth.

Even as we seek to expand and diversify our area of operations in high-priority emerging markets, we continue to focus on Real Estate, Construction, Cement, Power, Consultancy and Education. With our talented team of employees, rich with functional experience, we look at the future with great optimism.

My Home Group firmly believes in the philosophy of nurturing and giving back to society. The principles of Corporate Social Responsibility (CSR) are therefore fundamental to our ethos and the way we run our businesses. Our core values – quality, reliability and integrity – are reflected in all our actions and endeavours.

While we continue to build on the strengths of the Group and make a sustainable difference to society at large, I am always excited about the journey ahead and truly believe that the best of My Home Group is yet to come.

At My Home Group, we will always remain committed to help “Make Living Better”.

Dr. J. Rameswar Rao
Chairman, My Home Group

My Home Group

1981

My Home Group begins a multi-decade journey of immediate & consistent excellence in infrastructure

It all began with the vision of one man – our founder and promoter, Dr. J. Rameswar Rao. Entering the real estate business in 1981, he has been leading My Home Group for over 35 years now. Today, our presence in residential and commercial construction, cement, power, transportation, education and consultancy has a cumulative turnover of about Rs. 4,000 crore.

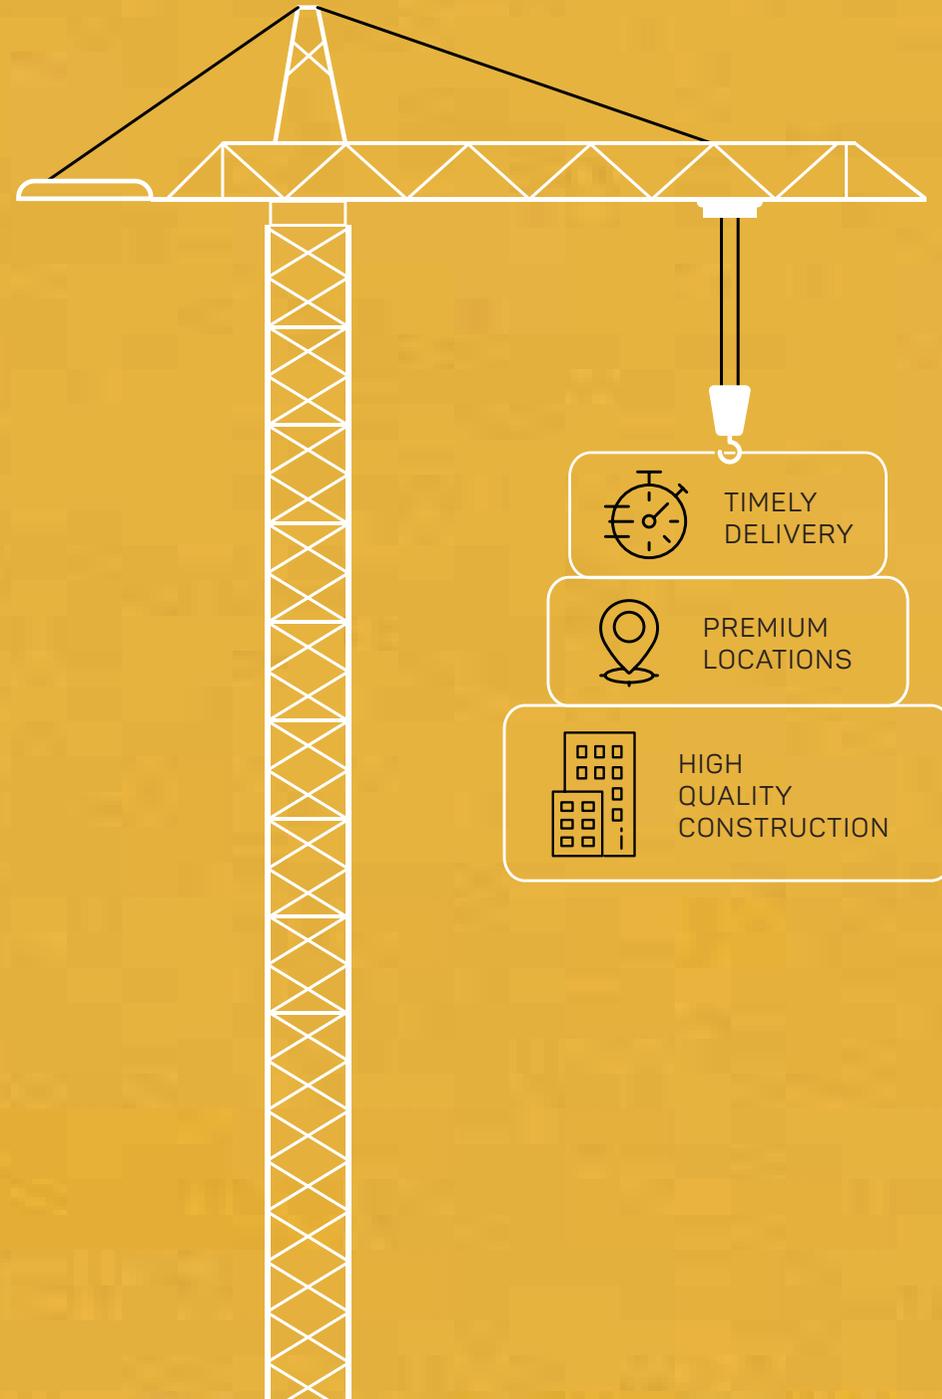

Headquartered in Hyderabad – a rapidly growing and increasingly cosmopolitan metropolis – My Home Group balances commercial interests with a commitment to innovation in engineering. From the homes we create to our growing investments in renewable energy, everything we do comes from our vision for the future.

Empowered by our founder's exemplary foresight, My Home Group has maintained steady growth year-on-year – without losing sight of our social responsibility through investments in infrastructure, education, health, environmental sustainability, and charitable causes.

Like the earth, My Home Group was designed to thrive through adaptability, resilience, and renewability.

BUILDING HAPPINESS

My Home Constructions

Through three decades of construction we have learnt a fascinating truth. Everytime we build a wall, we build a relationship. Since inception, My Home Constructions Pvt. Ltd. has been shaping Hyderabad's skyline.

Today, the company is amongst the most trusted names in this vertical. Our collective vision is to look beyond brick and mortar with the knowledge that we build homes and happiness; and close-knit communities who benefit when we enable quality living.

Our expertise in both Residential and Commercial projects is reflected in our track record – a total of 10.5 million sft built-up area, 14.5 million sft under active construction, and tens of millions sft in the pipeline.

However, our inspiration to continuously raise the benchmark comes from elsewhere – in the smiles of our growing number of customers who are an integral part of our vision of making lives better.

Built on foundations of excellence, we look at our Real Estate interests as more than just a business – but as a means of connecting families, businesses and people.

1981

MHCPL is founded, completes 18 residential and commercial projects over 35 years, with over 10.5 million sft built-up area

CEMENTING TRUST

My Home Industries

When India prospers, so do we.

For nearly 20 years, My Home Industries has been manufacturing and marketing the Maha Cements range of products with an annual production capacity of more than 10 million tonnes of cement and clinker. ISO 9001-2015, ISO 14001-2015 and OHSAS 18001-2007 certification – as well as being awarded Golden Peacock Award for Sustainability 2017 – lend us the credibility and stability our cement is reputed for.

Today, we are the fourth-largest cement manufacturer in South India, powered by four state-of-the-art facilities across Andhra Pradesh, Telangana, and Tamil Nadu. Our marketing footprint extends us further across South and East India. From socio-economic development to environmental stewardship, we are making a sustainable difference to the long-term vibrancy and vitality of the people and companies we work with.

Emboldened by our joint venture with Ireland's 27 billion-euro CRH Group and our position as a market leader in cement, My Home continues to build on the strong foundations of our legacy. From humble villages to sprawling cities, we help ensure that the future is solid, stable, and assured.

We are proud to announce efforts to re-position Maha Cements as a premium offering – the cement of choice for palatial homes, ambitious offices, and prestigious projects across the country.

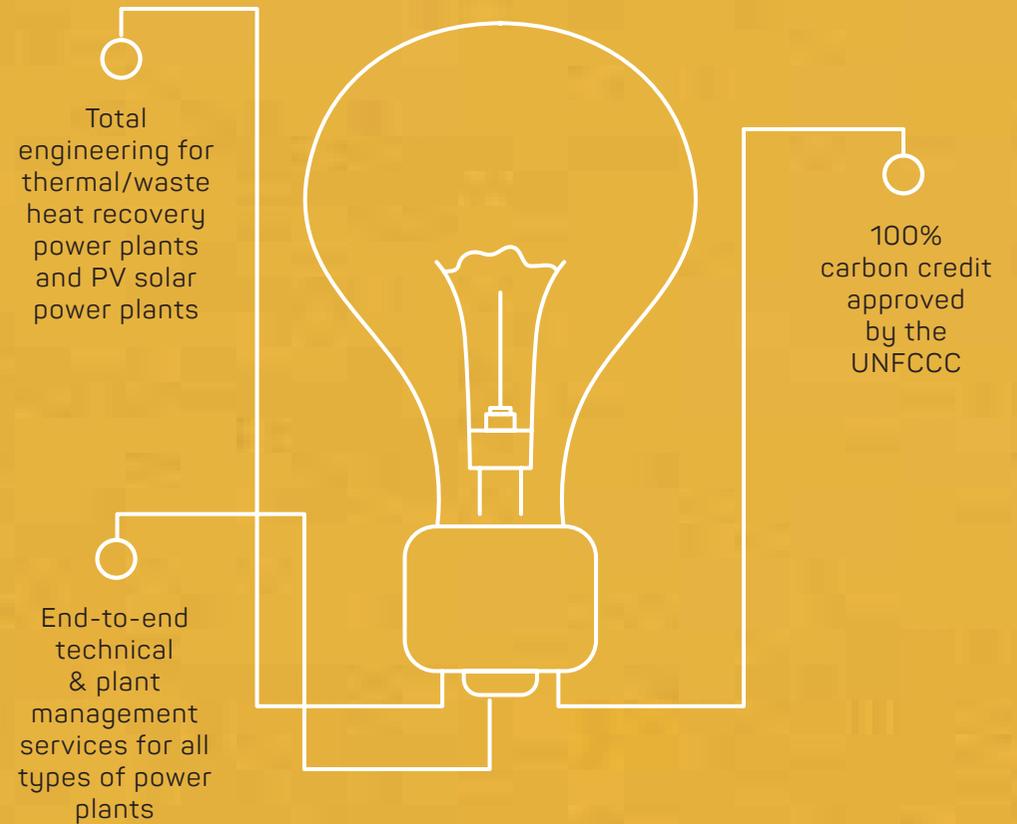

1998

MHIPL founded with 0.20 MTPA production capacity and now at 10 MTPA

Our cement business proudly enables the development and growth of India – from its most humble villages to its grandest cities.

ENERGISING A BRIGHTER TOMORROW

Abja Power

The My Home Group entered the power vertical at the beginning of the millennium with the acquisition of a naphtha-based combined cycle power plant. In time it was converted into a biomass-based conventional power plant. A proof of its efficiency was that it achieved 100% carbon credit with the approval of UNFCCC and bagged the "Best Non-Conventional Energy Company" award. Now christened Abja Power Pvt. Ltd., it entered the solar power energy in a big way while stabilising and strengthening its presence in power and coal trading.

As a logical step forward, My Home Power Consultancy Services Pvt. Ltd. was set up in 2005. The company has built a formidable reputation for its insightful consulting services with an enviable list of clients including Voith Turbo, Hindustan Lever, NTPC, etc. The company has signed agreements with an internationally reputed company for providing engineering services. Presently two overseas projects, one in Nepal and the other in Abu Dhabi, are being executed.

Through our Power and Consultancy business, we bring light to homes, businesses and schools across India's diverse landscape.

2000

Abja Power enters the market by acquiring a naphtha-based combined cycle power plant

NURTURING THE PROMISE OF YOUTH

My Home Education

Established
Little Scholar School

1991

Established
Meru International School

2018

Little Scholar School's new campus
inaugurated at Sanath Nagar

2006

An hourglass with a child reading a book at the bottom. The hourglass is filled with a dark brown liquid, and the child is positioned at the bottom, reading an open book. The hourglass is oriented vertically, with the top bulb larger than the bottom bulb. The child is a young boy with short hair, wearing a light-colored shirt, and is looking down at the book. The book is open, and the pages are visible. The hourglass is set against a light gray background.

Children are the innovators of tomorrow. Our foray into education is empowered by a vision of giving them a platform on which they can build their future.

My Home Educational Society was incorporated to make this vision a working reality. Coupled with the company founder Dr. J. Rameswar Rao's commitment to delivering value at every step, the company has achieved a string of milestones we are all proud of.

The year 1991 saw the birth of Little Scholar School in Hyderabad and its branch at Meallcheruvu, Nalgonda district. The school is an articulation of the Group's business purpose of "Make Living Better". It offers the ideal balance of quality education at an affordable cost, bringing education within reach of many.

Meru International School is the latest venture from My Home Group. Built on a legacy of quality, integrity, and trust with every project undertaken, Meru International School is founded in the belief that every child is 'Built to Succeed'.

The dream did not stop here. In fact, the school has been an inspiration for us to envisage a chain of international institutes which are in the pipeline, bringing home the intent of creating an ideal environment for India's next generation who will shine as global citizens.

Education is the catalyst for limitless potential. Through the My Home Educational Society, we equip India's young minds to impact change in the world.

ENABLING A WORLD OF GROWTH

My Home CSR & Environment

An hourglass with a light blue frame. The top bulb is filled with a smooth, golden-brown sand. A thin stream of this sand flows down the central neck. In the bottom bulb, the sand has formed a detailed miniature landscape featuring a small house with a chimney and a large, leafy tree. The background is a light, textured grey.

When business transcends balance sheets, wonderful things are possible. Our philosophy of making lives better is translated through our various initiatives to the society, communities and the underprivileged. As an integral part of our Chairman's philanthropic attitude, the My Home group has reached out through several successful CSR initiatives in the areas of healthcare, drinking water, visually challenged students, conservation of natural resources, natural calamities to mention a few.

The principles of corporate social responsibility have been woven into the Group's manifold scope of operations and are anchored in its core values and code of business ethics.

We believe that creating a better world is an inward journey too. To this end, we have in place employee-centric initiatives which include creating a pollution-free work environment, developing a green belt, rainwater harvesting pits and periodically conducting environmental awareness programs.

To underline our commitment for a better world, My Home is a proud participant in a range of efforts from environmental awareness to education.
